

Project consultants within European Grants (Horizon 2020)

Nordic Innovators is rapidly growing Scandinavian innovation and grant consultancy company. We currently have offices in Denmark (Copenhagen and Aarhus), France (Lyon) and Spain (Málaga). The founding partners have more than 30 years of experience within Innovation Management and in assisting European companies and public-sector clients obtaining European or national grant funding for innovation and technology projects through high quality grant applications. We offer a wide range of services covering the entire funding journey from grant scan, proposal writing to post submission project management.

We are looking to employ experienced proposal writers with documented experience in developing Framework Programme and Horizon2020 proposals who will be based in our office in Málaga.

Job description

Role

Your role will be to undertake the writing of key technology and innovation projects for diverse funding programs (primarily Horizon2020 and Eurostars), however work associated with the grant agreement process as well as Feasibility Study development will also be part of your role. You will work under the guidance of our Country Manager and senior consultants that will help to develop, train and mentor you to become part of our growing team of successful writers that are consistently producing high quality funding proposals for our European client base.

Tasks will include:

- Developing market feasibility studies
- Developing business plans for project ideas
- Writing high-quality innovation and technology proposals for diverse funding programs

Candidate requirements

Basic:

- Previous experience in writing research proposals for European Commission Funding Programs and National Funding Programs
- Fluency in written and spoken English is a requirement. The Corporate language in all our offices is English.
- Being able to interact with your colleagues, being a team player and joining the existing positive working environment
- Being able to build a positive connection and communicate professionally with clients and project partners
- Knowledge of Spanish is an advantage but not a requirement if based in our Malaga Office

Technical:

- PhD or Master's Degree in a science or engineering discipline will be an advantage, although candidates with an excellent Bachelor's degree and a track record across multiple technology areas will also be considered. If coupled with a business degree this will be seen as an advantage.
- Being able to further develop and add value to clients' innovative ideas.

What we offer

- Opportunity to join and add your knowledge to a young and fast growing successful high-performance team
- Competitive salary package
- Private health insurance
- Private pension scheme
- Communication package
- Relocation support
