

Project consultant within European Grants (Horizon 2020)

Nordic Innovators is rapidly growing Scandinavian innovation and grant consultancy company. We currently have offices in Denmark (Copenhagen and Aarhus), France (Lyon), Spain (Málaga) and Norway (Bergen). The founding partners have more than 30 years of experience within Innovation Management and in assisting European companies and public-sector clients obtaining European or national grant funding for innovation and technology projects through high quality grant applications. We offer a wide range of services covering the entire funding journey from grant scan, proposal writing to post submission project management.

We are looking to employ experienced proposal writers with documented experience in developing Horizon2020 proposals who will be based in our new office in Cornellá de Llobregat, an office that you will help to create together with two of our senior consultants.

Job description

Role

Working in close cooperation with our clients, you will undertake the proposal preparation of ground-breaking projects at both technological and market level. Other tasks associated with the grant agreement process as well as Feasibility Study development will also be part of your role. We provide services to diverse funding programs primarily Horizon 2020 and Eurostars. This job opportunity will facilitate your professional growth as our clients are some of the best SMEs in Europe and globally (we will show you several examples during the job interview). You will work under the guidance of our senior consultants, that will help to develop, train and mentor you to become part of our growing team of successful consultants that are consistently producing high quality funding proposals for our European client base.

Tasks will include:

- Developing market feasibility studies.
- Developing business plans for project ideas.
- Writing high-quality innovation and technology proposals for diverse funding programs.
- Client management to complete excellent quality service that we provide.

Candidate requirements

Basic:

- Previous experience in writing research proposals for European Commission Funding Programs. Experience in National Funding Programs will be a plus. Minimum 1 year
- High English level (written and spoken) is a requirement, as most proposals are written in English and the Corporate language in all our offices is English.
- Being able to interact with your colleagues, being a team player and joining the existing positive working environment.
- Being able to build a positive connection and communicate professionally with clients and project partners.
- Knowledge of Spanish is an advantage.

Technical:

- PhD or Master's Degree in a science or engineering discipline will be an advantage, although candidates with an excellent Bachelor's degree and a track record across multiple technology areas will also be considered. If coupled with a business degree this will be seen as an advantage.
- Previous industry experience is a plus.
- Being able to further develop and add value to clients' innovative ideas.

What we offer

- Opportunity to join and add your knowledge to a young and fast growing successful high-performance team. During the job interview we will show you how we work, what makes us different compared to other consultancies and we will present you our growth and funding rates.
- Competitive salary package.
- Private health insurance.
- Private pension scheme.
- Communication package.
- Relocation support.
- Friendly working environment.
- Flexibility.
